

TENZIN WANGYAL

Elmhurst, NY 11373 | (646) 543-9878 | tenzwang@yahoo.com | [Portfolio](#)

OBJECTIVE

As a recent graduate in software development, I am seeking a position in full-stack web development to leverage my skills and passion for problem-solving. I am enthusiastic about learning and building scalable web applications.

EDUCATION

Queens College of the City University of New York

Graduated - May 2023

Bachelor of Arts in Computer Science

Queensborough Community College

Graduated - January 2020

Associates in Computer Science & Information Security

TECHNICAL SKILLS

Languages: Javascript, Typescript, Java, Python, C++

Technologies: React, Node, Express, Next.js, Redux, Zustand, RESTful API, jQuery, SQL, MongoDB, CSS, SASS, HTML

Others: Git, Docker, Unit Testing/Integration Testing, Agile

PROJECTS

Expense Tracker

- Developed a responsive Expense Tracker web application utilizing React.js, showcasing efficient state management with React hooks and form validation using the 'Zod' library.
- Styled the application using Bootstrap, ensuring seamless expense input, categorization, and filtering.

Video Game Discovery App

- Created a responsive game discovery platform using React, Chakra UI, and Axios for API integration.
- Implemented features such as game search, genre selection, and platform filtering.

Synchronized News Bookmark

- Developed a low-level Node.js app with seamless interaction between GNews and Pocket APIs, enabling the retrieval of news articles based on user-inputted keywords and bookmarking them.
- Implemented OAuth 2.0 Three-Legged for secure authentication and synchronized operations between the GNews and Pocket APIs.

SQL Collaborative Database Development

- Collaborated with a team of 5 in developing an extensive SQL project, introducing a user-authorization table with custom datatypes for enhanced data integrity, and efficient data loading procedures.
- Implemented efficient data loading procedures, significantly contributing to the development of a normalized 3NF database model and optimized database performance.

WORK EXPERIENCE

Personal Assistant - New York, NY

Virginia Osborne

07/2022 - Present

- Scheduled meetings, repair work and oversaw house maintenance in a detailed manner.
- Efficiently coordinated travel arrangements and managed package drop-offs and pickups promptly.

Westerly Natural Market - New York NY

04/2013 - 07/2020

Office Assistant - Data Entry

- Managed daily inventory entries into the database, ensuring accurate and timely product placement.
- Troubleshooting and replacement of hardware and networking equipment to prevent system downtime.
- Oversaw the accuracy of product details in the database, resolved discrepancies, and maintained an updated price margin.
- Organized and sorted company checks, invoices, and pay stubs, contributing to the facilitation of timely payments and financial record accuracy.
